Professional Summary

I'm a software engineer with a passion for designing and implementing efficient algorithms that solve complex problems. As a developer, I strive to create elegant, maintainable code that delivers a seamless user experience. Whether it's developing new software or optimizing existing systems, I'm always looking for ways to push the boundaries of what's possible in the world of software engineering.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2022	Master of Computer Applications	Maulana Azad National Urdu University	8.24/10.0

June 2023 - July 2023

Features:

- Designed an attractive and user-friendly UI to enhance the user experience of the application.
- Implemented a stream selection option that allows users to navigate to the specific category.
- Added a 'Save Solution' option for users to save their solved problems for future reference.

Tech Stack: HTML, CSS, and JavaScript.

Description: Maths Partner is a web-based application developed using HTML, CSS, and JS, featuring an attractive UI with stream selection and save solution options for an improved problem-solving experience.

Tic-tac game | NEWTON SCHCOOL ([link](#))

March 2023 - April 2023

It is a Tic Tac Toe game using java

Feature :

- It has 2 component
 - It shows random turn user
 - It show green colour when one player wins

Tech Stack :

- Java , javafx

My Contribution :

- have created whole window application using java

Feature :

1. Real-Time Data fetching from the Database.
2. Responsive UI.
3. Full stack Project.
4. Login and Logout authentication.
5. Admin Page (Under Maintenance).
6. SPA.

- Navebar and product display, Allow user to experience the selection of item.
- Log In, sign Up & Log out authentication using firebase.

Tech Stack :

- React.js,HTML, CSS and JavaScript.firebase.

Description :

- Clone of famous E-Cammerce Website Amazone.
- Log IN Lo out Sing up authentication using firebase and real time payment integration using stripe.
- A dynamic e-commerce platform, allowing users to browse and interact with different products and add or delete items from their carts. Utilized backend API and MongoDB Atlas to fetch and manage product data, ensuring seamless integration and performance.

Drawing App | Newton School ([link](#))

December 2022 - December 2022

Feature :

- Responsive webpage
- draw anything and erase easily.

Tech Stack :

- HTML, CSS and JavaScript

My Contribution :

- In this application, i have created two area, drawing area and tools area.
- In this application, we can change color , erase , choose tools.

Typing Test | Newton school ([link](#))

December 2022 - December 2022

Feature :

- Test Typing Speed

Tech Stack :

- HTML, CSS And JavaScript.

My Contribution :

- In this application, i have created a typing test
- In this application, we can test typing speed and mistakes

Skills

Computer languages	SQL, Java, CSS, HTML, Javascript
Software Packages	NodeJS, Bootstrap, React
Additional Courses Taken	Data Structure
Soft Skills	Communication Skills

Co-Curricular Activities

Certificate Course in ROBOTIC WORKSHOP
 Certificate Course in National CERTIFICATE IN modular employble skiils
 certificate No KAN -02310514
 Certificate Course in cOURRSE ON COMPUTER CONCEPT
 Certificate No-GO0EDAAD1B84
 Playing Games
 Drawing
